

# Jumpn Gymnastics, Inc.

May 4, 2018

*An open letter to all of our dedicated staff, athlete members and their parents, volunteers, friends and the communities we serve:*

2018 is a year of many changes to our Jumpn Gymnastics operations in the Zimmerman and Princeton communities and surrounding areas. It is well known that for at least the past few years, we have been actively searching for a dedicated facility that we could operate from on a year-round basis, as we have long outgrown the spaces that we are currently using, or have limited access to.

We were initially looking at several properties that included existing commercial and industrial structures; bare land; lease and purchase options in the same general area that we have operated from for over the last five years, as we have continually grown our client base from these communities. We were very close several times to signing leases and depositing earnest monies to begin building on a commercial site that we purchased.

Regrettably, due to circumstances and situations beyond our control, our attempts to build a year-round dedicated gymnastics facility, or modify an existing leased property in the immediate area at this time have been unsuccessful. The monies that we have spent to date in order to secure a commercial site and to have contracted architectural building plans produced are lost and cannot be recovered. We are as disappointed as many of you are that we're unable at this time to build in the area, but we will look again at our options in the next year.

Despite these setbacks, however, we have exciting news!

Jumpn Gymnastics has this week entered into a lease agreement with the builders of the new Adrenaline Sports Center complex located just off Highway 10 in the City of Ramsey, MN, and obtained the necessary funding to purchase and install Olympic quality equipment and apparatus, and to operate as a full-time, year-round gymnastics training facility.

With the equipment that we already own, we will be adding a full-size spring floor exercise system; trampolines; Tumbler-Trak; vault table and runway; several full-size uneven bar sets, many full-size balance beams; Ninja climbing wall and ropes; foam pit for dismount landings; and dance floor. We may add additional equipment and sports as we adjust into our new building and as space allows.

We are tentatively planning on opening our new facility in August, 2018, hopefully in time for our Summer Session Two program. Our new address at that time will be:

Jumpn Gymnastics, Inc.

8710 – 147<sup>th</sup> Avenue NW, Suite 100

Ramsey, MN 55303

763-355-2815

Entrance off of Bunker Lake Blvd, west of Armstrong Blvd and north of Hwy 10.

We are still offering our Summer Session One program classes at our existing Zimmerman location, and are accepting class enrollments at this time. We at Jumpn Gymnastics sincerely hope that our existing athlete members and their parents, our friends, and volunteers are able to support us in this new endeavor, and can continue their training by following us into our new building location. We value your dedication and time that you have shown us these past many years, and we look forward to providing your athlete with the continued professional training that we are renowned for.

Thank you.

*Sheila Ewer*
